

Your equipment
status at Essco at
your fingertips

Custom equipment
due notices when you
want them

Historical data
on calibrations

Online versions
of your
calibration
certificates-
eliminate the
need for
file cabinets

esscoNET is available through our website, www.esscolab.com, and will grant you access to your asset information. You can access and print test equipment status, equipment due notices, historical data on calibrations and view or print online versions of your calibration certificates. **esscoNET** provides a paperless system saving you time and space.

This sophisticated software is easy to use, menu driven and it includes comprehensive **esscoNET** help files under the following headings: Certificates, Gaining Access, Equipment History, Login Procedure, Looking Forward, Most Recent Calibrations, Running a Report, Security of Data, Status of Equipment, Viewing All Calibrations, View Details and **esscoNET** Login-Screen.

Just imagine the time and phone calls this service will save you, not to mention the fact that your information will always be current because your account status is...

... just a click away.
