

Calibration of Laboratory Standards

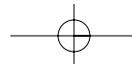

Your laboratory standards are the basis for your organizations most accurate measurements.

Let Essco provide commercial and accredited level calibrations for the high quality standards you depend on.

esscolab.com

Essco is an extraordinarily diverse commercial laboratory serving many industries as well as other laboratories. Our capabilities far surpass that of most commercial laboratories.

Companies throughout the U.S. as well as worldwide utilize Essco's laboratory standards level of expertise to maintain the integrity and traceability of their most accurate instrumentation.

Laboratories find it efficient and cost effective to send their standards to Essco for commercial level and accredited calibrations.

Examples of standards:

- Multi-Product Calibrators
- Measuring Bridges
- Temperature Calibrators
- RTDs
- Block Calibrators
- Dividers
- Voltage Standards
- Standard Resistors
- Standard Capacitors
- Standard Inductors
- Super Micrometers
- Gage Blocks
